Education

BA (Hons) Illustration 2:1
University of Lincolnshire

and Humberside
09/2002 - 06/2005

Experienced in working with bands, DJs, artists, record companies, recording studios, tour/event/promotion companies, shops, music colleges and youth charities, I believe I can bring a unique blend of creative skills and artistic vision to any project.

I am enthusiastic and creative, with a good working knowledge of Adobe Suite and a love for traditional media from marker pen to collage.

I work well under pressure and keep to tight deadlines. I'm friendly, professional & adaptable.

I follow new software developments and trends closely and always look for new marketing and reach opportunities, such as those presented by the recent explosion in social media.
